

# How do you solve water?

IMAGINE YOUR IDEA MAKING A DIFFERENCE IN THE WORLD.

As a student participating in the International Junior Science Olympiad 2017 (IJSO), you have the chance to join the "How do you solve water?" video challenge and win an iPad.

#### What do you have to do?

This means making a 1-3 minute video in which you state your answer to "How do you solve water?" e.g. by emphasizing actions you take personally or through your project for the International Junior Science Olympiad.

#### What's in it for you?

You have the opportunity to share your idea on how you solve water with scientists and water experts from all over the world. The student and or team of students with the best idea/video will be awarded with an iPad (one for each team member) and recognized as winner(s) of the Xylem Water Prize during the official IJSO opening ceremony on December 4, 2017.

For more information and to join the challenge visit  
[www.xylemwaterprize.com](http://www.xylemwaterprize.com)

Participation deadline: November 17, 2017
